CHAPTER 150: GENERAL PROVISIONS

Section

- 150.01 Minnesota Accessibility Code
- 150.02 Contractor's license required
- 150.03 Manufactured homes
- 150.04 Amateur radio support towers
- 150.05 Location of sexually oriented businesses
- 150.06 Compliance with code

§ 150.01 MINNESOTA ACCESSIBILITY CODE.

(A) The Minnesota Accessibility Code, established pursuant to M.S. §§ 326B.01 - 326B.998, as they may be amended from time to time, and as provided for in Minn. Rules Ch. 1341, as it may be amended from time to time, is adopted as the building code for accessibility in this city. M.S. § 326B.16 provides that a city which has not adopted the Uniform State Building Code is nevertheless responsible for the enforcement of the Minnesota Accessibility Code, and this section is intended to comply with that requirement.

(B) No building subject to the provisions of the Minnesota Accessibility Code shall be constructed, reconstructed or substantially altered, or undergo a change in use within the city unless the building will comply with the Minnesota Accessibility Code after the construction or alteration is completed or the change in use occurs.

(C) Any person who constructs, reconstructs or substantially alters any building subject to the Minnesota Accessibility Code, or changes the use of any such building shall, before construction or alteration begins, certify to the City Clerk that the applicable provisions of the Minnesota Accessibility Code will be complied with.

(D) No person shall be issued a building, zoning or land use permit unless they certify that any structure to be located on the property shall be constructed or reconstructed in compliance with the handicapped accessibility provisions, if they apply to the structure to be constructed, substantially altered or reconstructed.

(E) A violation of this section is a misdemeanor punished as provided for in § 10.99.

§ 150.02 CONTRACTOR'S LICENSE REQUIRED.

No residential building contractor, residential remodeler, or other person who is required to be licensed by the state under the provisions of M.S. §§ 326B.805 - 326B.89, as they may be amended from time to time, and no person employing a residential contractor, who is required to be licensed, shall be issued a building, zoning or land use permit unless that contractor is licensed. Any person applying for a permit who is required to have a state license but who does not have a state license shall be reported to the State Commissioner of Commerce, who may begin an action against the person.

Penalty, see § 10.99

§ 150.03 MANUFACTURED HOMES.

After the date of the adoption of this code, only manufactured homes which comply with the Manufactured Home Building Code established by M.S. § 327.31 may be located in and used as a dwelling within the city. A mobile home, manufactured home, house trailer or other mobile dwelling which does not comply with the Manufactured Home Building Code and which is used as a residence after the date of the adoption of this code is a nonconforming use as defined by M.S. § 462.357, Subd. 1e, as it may be amended from time to time, and this nonconforming use may be continued, including through repair, maintenance, replacement, restoration or improvement but if the nonconformity or occupancy is discontinued for a period of more than one year, or the nonconforming use is destroyed by fire or other peril to the extent of greater than 50% of its market value and no building permit is applied for within 180 days of when the property is damaged, any subsequent use or occupancy of the land or premises shall be a conforming use or occupancy.

Penalty, see § 10.99

§ 150.04 AMATEUR RADIO SUPPORT TOWERS.

Amateur radio support structures (towers) shall not exceed a height above ground level of 70 feet, unless a conditional use permit has been granted by the City Council. They shall be mounted on the roof of a dwelling or other building or located in the rear yard unless there is not sufficient space to erect them in those locations. They shall be installed in accordance with the instructions furnished by the manufacturer of that tower model. Because of the experimental nature of the amateur radio service, antennas mounted on a tower may be modified and changed at any time so long as the published allowable load on the tower is not exceeded and the structure of the tower remains in accordance with the manufacturer's specifications.

§ 150.05 LOCATION OF SEXUALLY ORIENTED BUSINESSES.

The City adopts Minn. Stat. § 617.242 (2012) with its requirement that such businesses be located at least 500 feet from a residence and at least 2800 feet from a school, church or other place of worship.

§ 150.06 COMPLIANCE WITH CODE.

No person shall erect, alter or replace any structure within the city unless the structure complies with the applicable requirements of this code and the person has obtained a land use permit from the City Clerk certifying compliance with all of the applicable requirements of this code. No person shall use any structure or premises for any purpose other than as permitted by this code, except that lawful nonconforming uses as of the date of the adoption of this code may continue only as provided in M.S. § 462.357, Subd. 1e, as it may be amended from time to time.
